Avenza Releases Geographic Imager 7.1 for Adobe Photoshop

Toronto, ON, November 5, 2025

Avenza Systems Inc., producers of the Avenza Maps app for mobile devices and geospatial extensions for Adobe Creative Cloud, including MAPublisher for Adobe Illustrator, is excited to announce the release of Geographic Imager version 7.1 for Adobe Photoshop. This version introduces compatibility support for Adobe Photoshop 2026 and macOS Tahoe, as well as other performance enhancements and bug fixes.

Geographic Imager for Adobe Photoshop delivers an all-encompassing solution for importing, editing, and exporting geospatial images, such as aerial and satellite imagery. Work with digital elevation models, GeoTIFFs, and other popular GIS image formats using Adobe Photoshop features such as transparencies, filters, cropping, and image adjustments while maintaining georeferencing and support for hundreds of coordinate systems and projections.

New features for Geographic Imager 7.1 for Adobe Photoshop include:

- **Adobe Creative Cloud 2026 compatibility:** Geographic Imager now supports Adobe Photoshop 2026 (version 27) on both Windows and Mac.
- **macOS Tahoe compatibility:** Geographic Imager also officially supports the new macOS Tahoe (version 26) update.
- **Additional user interface and usability enhancements**

To utilize the improvements and enhancements offered in Geographic Imager 7.1, users require a valid Adobe Creative Cloud subscription and a compatible operating system. For questions and information on how compatibility requirements may affect your organization, please contact our [Support Centre](#).

Geographic Imager 7.1 is available immediately and free of charge to all current Geographic Imager Maintenance Program members and starts at US\$599 for non-maintenance upgrades. New fixed licenses start at US\$899. Geographic Imager Basic Edition licenses start at US\$135. Academic, floating, and volume license pricing is also available. Visit www.avenza.com/geographic-imager for more information.
